

# GENESIS G80

2023

# GENESIS INNOVATION NEVER SLOWS DOWN

A few short years ago, we created Genesis out of a sense that a new kind of luxury was emerging at the intersection of design and technology. Where luxury isn't a feature, but a feeling – the direct effect of how everything that surrounds you performs.

In the 2023 Genesis G80, that performance includes the first-ever Electrified G80. This all-electric luxury sedan brings a powerful new alternative to those seeking lower carbon emissions – without denying the thrill of pressing their right foot to the floor. It joins two equally compelling G80 interpretations: The 2.5T and 3.5T AWD Sport.

Whichever you choose, your G80 will be recognizable day or night. Its broad Crest Grille is framed on each side by two lines of light – a design element that has become the unmistakable look of Genesis. And a clear sign that traditions were made to be broken.

# CAN THE SHAPE OF A SEDAN SEDUCE YOU?

This is design at its purest. An object whose shape gives it a life of its own. In the Genesis G80, the expression of confident athleticism is powerfully seductive.

Everything you experience with the G80 flows effortlessly, from the way you unlock and start your car to the way you park it or connect with it remotely. The shapes that seduce your eye are infused with a sense of latent power. Sweeping lines and parabolic contours amplify its dynamic profile – and your anticipation for setting your G80's artistry in motion.

On the road, the G80 redefines how luxury and performance are perceived, from the distinctive grille and signature lighting that announce its presence, to the way your G80's precisely controlled movements are always in sync with your desires.

If the design of the G80 enhances your perceptions about Genesis, so will this performance metric: In its 2022 U.S. Vehicle Dependability Study, J.D. Power ranked Genesis #1 in long-term dependability among luxury brands.[1]

# MAKE YOUR OWN LANE

You have a choice: Lead, follow, or get out of the way.
The Genesis G80's design makes your decision obvious to all.

# PERFORM UNDER PRESSURE

In the G80 2.5T, the intense pressure of turbocharged air fed into the engine yields remarkable results. Pressing the accelerator unleashes 300 horsepower,[2] making it the most potent 4-cylinder engine in its class.[3] Traction is offered with two options: Rear Wheel Drive or available All Wheel Drive.

Reach for the rotary Shift-by-Wire knob on the center console, and feel the knurled textures engraved around the edge. As you shift from Park into Reverse or Drive, the tempered glass face of the dial changes the color of its illumination.

With its aluminum hood, door and trunk panels, the G80 2.5T enjoys an exceptional power-to-weight ratio. You'll enjoy it, too – the 2.5T's handling reflexes are sharp, a feeling aided by its precise steering ratio.

Drive Mode Select lets you choose your preferred driving dynamic – Eco, Comfort, Sport, Smart or a Custom Mode – at the press of a button. An Electric Brake Booster provides equally dynamic stopping power: Press the brake pedal, and the response is quick, quiet and smooth.

2.5L I4 TURBO GDI ENGINE

| 300 HP | 311 LB-FT | 8-SPEED |
|---|---|---|
| Maximum Output[2] | Maximum Torque[2] | Electronic Automatic |

# THRUST YOURSELF INTO THE LIMELIGHT

Considering the G80 3.5T AWD Sport? Get ready for this – the thrust of a 3.5L Twin-Turbo V6 that pours out 375 horsepower, and 391 lb-ft of torque that presses you firmly into your seat.[2]

You're always in precise control of the car's performance dynamics. It starts with your driver seat: Deeply supportive, it includes Power Bolster adjustment and a Power Cushion Extension. An Electronically Controlled Suspension with Road Preview uses the G80's forward-facing camera to scan the road ahead for speed bumps or potholes, then reacts instantly by adjusting front and rear damping to optimize ride comfort and handling control.

On the 3.5T AWD Sport Prestige, a Flexible Brake Mode lets you change the braking response from Comfort to Sport. And with unique design elements like front and rear Sport bumpers and Sport-exclusive 19˝ or 20˝wheels, you can feel your emotions start to stir even before you shift into Drive.

3.5L TWIN-TURBO V6 ENGINE

| 375 HP | 391 LB-FT | 8-SPEED |
|---|---|---|
| Maximum Output[2] | Maximum Torque[2] | Electronic Automatic |

# PERFORMANCE IN TUNE WITH YOUR DESIRES

Want to tune the G80's performance variables to your exact preferences? With its Sport+ Drive Mode, the 3.5T AWD Sport Prestige lets you select sportier gear shift timing with the ability to hold upshifts. The idle can be raised from 750 to 1,000 RPM, and you can tune the Electronically Controlled Suspension for a sportier feel as well.

Rear Wheel Steering helps reduce the 3.5T AWD Sport Prestige's turning radius for greater maneuverability in tight spots – and improved turning stability in corners. Depending on driving speed, drive mode and front-wheel steering angle, the steering angle of the rear tires can adjust by a maximum of two degrees.

Wrapped around the 3.5T AWD Sport Prestige's unique 20˝ Sport Alloy Wheels are All-Season or Summer tires that give you a firm grip on the road. To help ensure maximum acceleration and straight-line stability when the rubber meets the road, a Launch Control feature optimizes torque and minimizes wheel slip.

# THE ELECTRIFIED G80: FAST-FORWARD TO THE FUTURE

It's here – the first-ever Electrified G80. Sharing the athletic elegance of its G80 siblings, the differences are subtle. Looking for the charging door? It's hidden within the inverted G-Matrix pattern of the Genesis Crest Grille.

Offered exclusively with All Wheel Drive, the new Electrified G80 has an EPA-estimated driving range of 282 miles[4] and a maximum 516 lb-ft of torque underfoot for quick acceleration. It can charge quickly, too: In just 22 minutes, the battery increases from a 10% charge to an 80% charge when using a 350 kW Level 3 fast charger.[5]

Once underway, the Electrified G80 interior is blissfully quiet, compliments of Active Noise Control technology. Electronically Assisted Dynamic Torque Vectoring Control and an Electronically Controlled Suspension with Road Preview help optimize handling and ride comfort.

The Electrified G80's braking feel can be toggled between Comfort and Sport Braking Modes, while a Smart Regenerative Braking System can automatically adjust the amount of regenerative braking based on the traffic detected in front of you. Now *that's* being ready for the future.

136KW FRONT + 136KW REAR ELECTRIC MOTORS

| 365 HP | 516 LB-FT | 282 MI |
|---|---|---|
| Maximum Output | Maximum Torque | All Electric Range[4] |

# SAFETY SO ADVANCED, IT ANTICIPATES WHAT WILL HAPPEN NEXT

The suite of safety technologies in your G80 form one of the more advanced mobile protection systems ever offered in an automobile.

As you move down the road, accident-avoidance features like Forward Collision-Avoidance Assist (FCA) look ahead.[6] In addition to helping avert collisions with a slowed or stopped vehicle, pedestrian or cyclist in front of your car, FCA can quickly assess the risk of colliding with oncoming traffic while turning left in an intersection – and bring you to a stop automatically if necessary.[7]

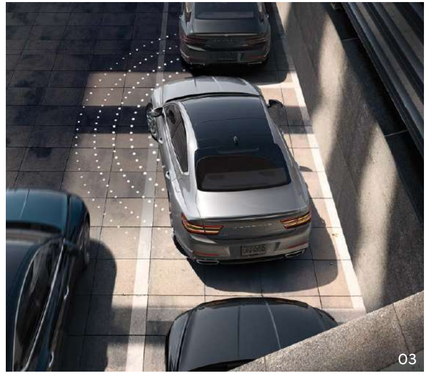

2022 IIHS TOP SAFETY PICK+

2022 Genesis G80[8]

5-Star Safety Ratings
More Stars. Safer Cars.[9]

01

02

03

04

05

01 SURROUND VIEW MONITOR

An available Surround View Monitor uses four cameras to display a 3D view of the perimeter of your G80. Use it to guide your way during tight parking maneuvers and for a clear view of curbs when parallel parking. A remote image capture feature lets you check your car's surroundings on your smartphone while you're away.[10]

02 REAR CROSS-TRAFFIC COLLISION-AVOIDANCE ASSIST AND PARKING COLLISION-AVOIDANCE ASSIST – REAR

Your G80 can warn of vehicles approaching from the side while you're exiting a parking space in reverse gear. An available Parking Collision-Avoidance Assist feature uses the rear camera and ultrasonic sensors to warn of pedestrians or obstacles while backing into or out of parking spaces. Both features can apply emergency braking automatically to help prevent mishaps.[11]

03 BLIND-SPOT VIEW MONITOR AND BLIND-SPOT COLLISION-AVOIDANCE ASSIST

Activate your turn signal, and an available Blind-Spot View Monitor displays video in the instrument cluster from the G80's side-view camera.[12] When you approach the line markings for your lane change, Blind-Spot Collision-Avoidance Assist automatically engages differential braking to help avoid collisions if a vehicle is detected in the rear blind spot. It also monitors your flanks to help prevent collisions when exiting a parallel parking spot.[13]

04 FORWARD ATTENTION WARNING AND DRIVER ATTENTION WARNING

The G80's available 12.3″ 3D Digital Instrument Cluster comes equipped with an infrared camera that checks the driver's eye position. If drowsiness or inattentiveness is detected, a visual alert is displayed and an audible warning sounds.[14] Driver Attention Warning can also issue a warning if driving patterns associated with fatigue or inattentiveness are detected.[15]

05 NAVIGATION-BASED SMART CRUISE CONTROL

Beyond automatically adjusting your speed when slower traffic is present, the G80's Smart Cruise Control can adjust automatically to changes in posted speed limits. An Auto Curve Slowdown feature helps to reduce your cruising speed when entering a curve, then resumes the previously set speed after exiting.[16]

# AN OASIS OF CALM

In the Genesis G80 interior, you aren't confronted by an overabundance of buttons, switches and controls. Instead, a beautifully detailed space reveals less can indeed be more.

# DESIGNED TO IGNITE THE SENSES – AND MAKE SENSE

Settle into the G80 interior – and prepare for a sensory experience where each exquisite material and every advanced technology is applied with minimalist restraint.

Touch-Type Climate Controls let you adjust key climate settings with a simple swipe of your finger. Acoustic laminated glass in the triple-sealed front doors helps block road and wind noise, while available Active Noise Control technology measures the frequencies from road noise to create its own equal but opposite sound waves, achieving a remarkably quiet interior.

Open the door of the Electrified G80, and you enter an elegant cabin replete with rich materials. Your seats, center console and armrests are covered in naturally dyed leather. The birch wood trim? It's crafted using pieces salvaged from fine furniture makers – an example of the lengths our designers will go to couple modern luxury with sustainability.

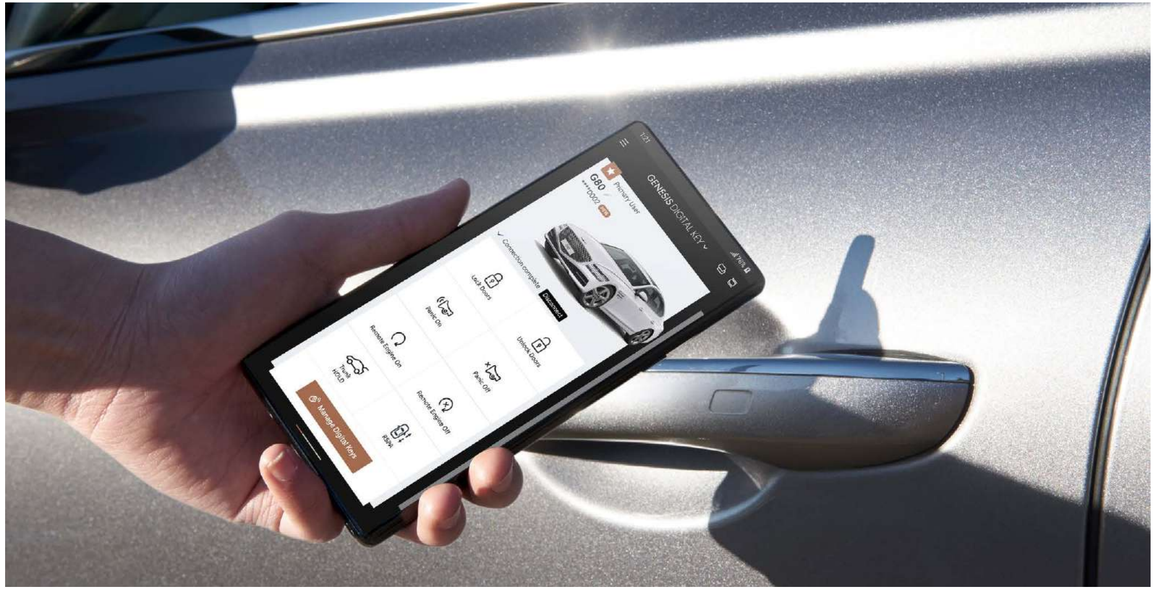

# SIMPLICITY IS THE KEY TO LUXURY

It can be the little things that disrupt your mood. Like fishing for your keys just to unlock the door and start your car. That's where an available Genesis Digital Key comes in handy. It lets you unlock your G80's front doors and start your car using your compatible Android™ smartphone or your NFC Key Card.[17] Your Genesis Digital Key can be shared with up to three people. Driver and guest preferences for driver seat position, audio presets and more are all maintained in the Genesis cloud.

Ready to roll? Placing your compatible mobile phone on the G80's available Wireless Device Charger does more than keep the phone's battery juiced – it also enables your car to be started in a simple, keyless fashion.[18]

## SEAT CLIMATE

Can a seat be its own climate zone? On the Genesis G80, available front-seat climate control features include speed-sensitive cooling and the ability for you to adjust the heat balance between the cushion and seatback. The soothing warmth of heated seats is also available for rear seat passengers.

## ERGO MOTION COMFORT

The G80's available Ergo Motion Seat contains seven individual air cells in the driver's seatback and seat cushion. A button on the side of the seat lets you choose your settings from a menu for inflating or deflating the cells for posture support, or stretching your back and thighs to help fend off the fatigue of long drives.

## SMART POSTURE CARE

What is your most ergonomic seating position? Your G80 knows. After analyzing the driver's physical profile data, Smart Posture Care technology automatically adjusts the steering wheel and driver seat positions, lumbar support, outside mirror position and the available Head-up Display for optimal comfort.

# DRIVE PRECISELY

As a performance sedan, your G80 is all about fueling your need for precise feedback. An available Head-up Display projects critical driving information onto the windshield for at-a-glance updates. Dynamic Voice Recognition acts as an intelligent personal agent that responds to conversational commands.[19] You can ask for directions to restaurants, dial a friend, get weather forecasts, even tell your G80 to roll up the windows – all by pressing a steering wheel button.

Some of your G80's precision features are so advanced, you will not even know they are working in the background. Connected Routing displays navigation more accurately via the cloud[20] – and with Over-the-Air Updates, the software embedded in your G80's head unit is automatically updated.[21] They're both available through an extensive array of Genesis Connected Services features that allow you to interact with your car in powerful, practical ways.

## VEHICLE-TO-LOAD (V2L) POWER OUTLET

The Electrified G80 comes equipped with a bi-directional Vehicle-to-Load (V2L) power outlet that conveniently makes it possible to use 220V electric appliances outside of the vehicle. Use your vehicle's battery to charge e-bikes, outdoor lights or items for your tailgating or beach party.[22]

## REMOTE SMART PARKING ASSIST

How smart is this? With the available Remote Smart Parking Assist, you can park your G80 using the key fob as a simple remote control.[23] Your G80 effortlessly moves into or out of tight parking spots. No need for shifting gears or turning the steering wheel – it's all handled automatically.

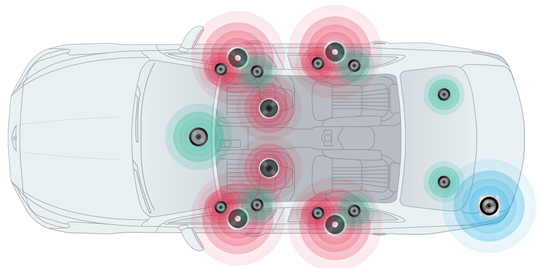

## HANDS-FREE SMART TRUNK

Hands full as you approach your G80? No worries. Stand within three feet of your trunk for at least three seconds, and the Hands-Free Smart Trunk with Auto Open recognizes your key fob and pops the trunk lid open automatically for easy access to the car's spacious cargo area.[24]

# RULE YOUR OWN MULTIMEDIA EMPIRE

The G80's Premium Navigation System and 14.5″ HD Screen reflect in-car multimedia at its most refined. Our designers created a Genesis font and Genesis copper graphics for the 2,560 x 720 DPI display, giving it a modern, elegant appearance. The expansive width includes a split-screen that lets you customize one-third of the touch surface with the audio, weather or navigation content of your choosing.

Ready to rock? Turn on your G80's available 21-speaker Lexicon® Premium Audio System. With a 14-channel digital external amplifier, 5-speaker soundbar center channel, Kevlar cone front midrange speakers, underseat subwoofers and QuantumLogic® Surround Sound technology, it's sonic nirvana. You will enjoy listening to your favorites via SiriusXM® Satellite Radio,[25] HD Radio,™ Apple CarPlay,® Android Auto™ and Bluetooth® streaming.[26]

# GENESIS CONNECTED SERVICES

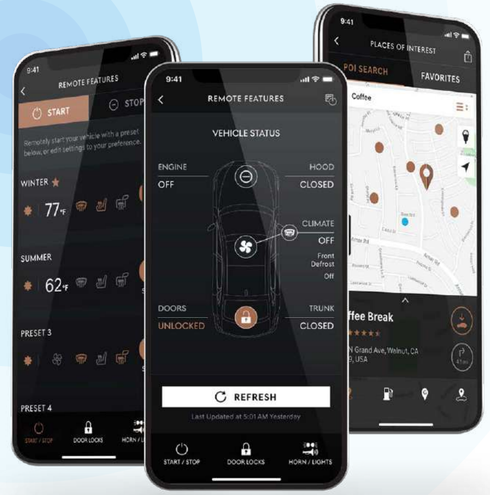

With the Genesis App downloaded to your mobile device, you can remotely check to see if you left your G80's doors unlocked or a window open. You can even view an overhead snapshot of your vehicle and its surroundings on your compatible smartphone.[27]

Want your G80's cabin to be the perfect temperature when you enter? Ask your Genesis App, or your Amazon Echo® or Google Home™ device, to remotely start the engine and climate controls from the comfort of your couch or office.[28]

The app also lets you check the G80's fuel level (or the Electrified G80's battery charge level) and includes a Valet Mode feature to help you keep tabs on your Genesis.

It's all part of Genesis Connected Services' wide range of remote, safety and car care features that include Monthly Vehicle Health Reports and Maintenance Reminders, automatically calling for assistance in an emergency,[29] and much more. For information on all of the services available to G80 owners, visit genesis.com.[30]

# GENESIS EXPERIENCE

Our thoughtfully crafted suite of owner benefits is designed to enhance not just the way you drive, but the way you live. It reflects our profound commitment to meeting your needs and wants precisely. And while we can't make more of it, the time-saving features of the Genesis Experience will help you spend your time where it matters most.

## COMPLIMENTARY SERVICE VALET

You may never set foot in our service center. With Genesis Service Valet (complimentary for 3 years or 36,000 miles, whichever comes first), we'll perform a remote diagnostic check, pick up your vehicle, send a Courtesy Loaner Vehicle and return your G80 when the scheduled maintenance or warranty repair is complete.[31]

## 24/7 ENHANCED ROADSIDE ASSISTANCE

Peace of mind is another essential luxury. Should your travel plans take an unexpected turn, five-year complimentary Roadside Assistance provides tire changes or transportation to the nearest Genesis retailer. Reimbursement for an overnight stay is included if needed.[33]

## SIRIUSXM ALL ACCESS SATELLITE RADIO

Complimentary for your first three months, SiriusXM® All Access offers one of the widest varieties of entertainment at your fingertips. Enjoy every channel available on your satellite radio – including personalized online stations powered by Pandora® – and listen in your G80 or on your computer, smartphone or tablet with the SiriusXM app.[25]

## COMPLIMENTARY SCHEDULED MAINTENANCE

Enjoy a worry-free Genesis ownership experience with Complimentary Scheduled Maintenance for 3 years or 36,000 miles, whichever comes first. Complimentary oil changes are also included with your normally scheduled maintenance appointments at a Genesis service center.[32]

## GENESIS CONNECTED SERVICES

Every new G80 includes a complimentary subscription to Genesis Connected Services. It's an exclusive suite of safety, car care, guidance and remote features that help keep you connected to your digital life and the things you need on the go.[30]

## NAVIGATION AND MULTIMEDIA UPDATES

To ensure you are accessing up-to-date driving directions, your G80's navigation system comes with annual map updates – complimentary for three years during routine maintenance visits with Genesis. Over-the-Air Updates are also available through Genesis Connected Services.[34]

# G80 OPTION PACKAGES

## G80 2.5T ADVANCED

**2.5T Standard features plus:**

+ 19″ Alloy Wheels with All-Season Tires
+ Matte Finish Wood Trim
+ Ventilated Front Seats
+ Power Rear Window & Manual Rear Door Sunshades
+ 3-Zone Climate Control
+ Power Trunk
+ Lexicon® Premium Audio
+ Panoramic Sunroof

**All Wheel Drive adds:**

+ Heated Rear Seats
+ Heated Steering Wheel

## G80 2.5T SPORT PRESTIGE

**2.5T Advanced features plus:**

+ Sport Appearance
+ 19″ Sport Alloy Wheels with All-Season Tires
+ Leather Seating Surfaces
+ 12.3″ 3D Digital Instrument Cluster
+ Surround View Monitor
+ Blind-Spot View Monitor
+ Remote Smart Parking Assist
+ Parking Collision-Avoidance Assist – Reverse
+ Advanced Rear Occupant Alert
+ Wireless Device Charger
+ Genesis Digital Key
+ Power Door Closure
+ Sport Aluminum Trim
+ Heated Rear Seats (standard on AWD)
+ Heated Steering Wheel (standard on AWD)
+ Driver's Seat with Power Cushion Extension, Power Bolsters & Ergo Motion
+ Forward Attention Warning
+ Alloy Pedals
+ Monobloc Front Brakes
+ Front Passenger Seat Walk-in Device

## G80 3.5T AWD SPORT PRESTIGE

**3.5T AWD Sport features plus:**

+ 20″ Sport Alloy Wheels
+ Rear Wheel Steering
+ Nappa Leather Seating Surfaces
+ Microfiber Suede Headliner & Pillars
+ Carbon Fiber Trim
+ 12.3″ 3D Digital Instrument Cluster
+ Head-Up Display
+ Active Noise Control – Road (Summer Tires only)
+ Remote Smart Parking Assist
+ Parking Collision-Avoidance Assist – Reverse
+ Forward Attention Warning
+ Electronically Controlled Suspension with Sport Tuning

# FOOTNOTES

[1]Genesis received the fewest reported problems in its segment in the J.D. Power 2022 U.S. Vehicle Dependability Study based on 2019 models. See jdpower.com/awards for details. [2]Estimated horsepower and torque ratings with premium fuel. [3]Class comparison versus 4-cylinder engine competitors defined by Genesis Motor America is based on comparison of specifications on manufacturer websites. [4]Estimated driving range based on a fully charged battery pack and combined 97 MPGe rating. MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. All figures are EPA estimates for comparison purposes only. Actual range will vary with options, driving conditions and habits, the vehicle and battery's condition, and other factors. [5]Estimates based on a 350 kW, 800V DC EV Fast Charger. Charging rate/time estimates vary based on factors including current battery charge level, output of the charging unit, vehicle/battery settings and outside temperature. [6]Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them, as well as pedestrians and cyclists under certain conditions. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians and cyclists under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for details and limitations. [7]Junction Turning helps the driver avoid collisions involving turning left at an intersection by applying braking when an oncoming vehicle is detected from the opposing lane. There are limitations to the function, detection, range and clarity of the system. Junction Turning may not function correctly if one or more of the sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. This driver assistance system is not a substitute for safe driving. See Owner's Manual for details and limitations. [8]To qualify for *2022 TOP SAFETY PICK+*, a vehicle must earn good ratings in the driver-side small overlap front, passenger-side small overlap front, moderate overlap front, side, roof strength and head restraint tests. It also must earn an advanced or superior rating for vehicle-to-vehicle and vehicle-to-pedestrian front crash prevention and come with standard acceptable- or good-rated headlights. For details visit www.iihs.org. [9]Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.nhtsa.gov). [10]Surround View Monitor is a parking support system. The Surround View Monitor cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for details and limitations. Remote image capture requires an active Genesis Connected Services account. [11]Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross traffic behind their vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCA. Parking Collision-Avoidance Assist – Reverse (PCA-R) can alert the driver of a potential hazard by providing an audible warning and, if deemed necessary, applying light braking. PCA-R is active when the vehicle is in reverse gear and operating at low speeds. Never rely exclusively on PCA-R when exiting a parking space, as it is not a substitute for attentive driving. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. [12]The Blind-Spot View Monitor (BVM) assists the driver in changing lanes by providing a live view of the blind spots on either side of the vehicle and an audible alert if another vehicle is detected. Turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. [13]Blind-Spot Collision-Avoidance Assist (BCA) assists the driver by warning of other cars in the rear blind-spot region. There are limitations to the function, range, detection and clarity of the system. BCA may not operate if sensors are obscured in any way. Do not rely exclusively on BCA – it is a supplemental system, and the driver must be attentive and exercise caution when driving. It is important to always signal, look over your shoulder and through your mirrors before changing lanes. Parking Exit Assist (PEA) helps prevent collisions when exiting parallel parking spots. It can alert the driver of a potential hazard. Never rely exclusively on PEA when exiting a parking space, it is not a substitute for attentive driving. Always look over your shoulder and use your mirrors to confirm clearance. There are limitations to the function, detection, range and clarity of the system. PEA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. See Owner's Manual for details and limitations. [14]Forward Attention Warning (FAW) is available on the G80 2.5T Sport Prestige and 3.5T AWD Sport Prestige models, and standard on Electrified G80. FAW helps monitor the driver's attention using an infrared camera and provides an audible warning if it detects a potential lack of driver attention. It does not detect and provide an alert in every situation. It is the driver's responsibility to remain alert at all times. See Owner's Manual for details and limitations. [15]It is the driver's responsibility to remain alert at all times. Driver Attention Warning is only a warning to inform the driver of a potential lack of driver attention or drowsiness. It does not detect and provide an alert in every situation. See Owner's Manual for details and limitations. [16]Smart Cruise Control with Stop & Go (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for details and limitations. Auto Curve Slowdown is for highway use only and works in conjunction with SCC or HDA and only when navigation map data is available. It will not work under all circumstances. Driver remains responsible for driving at posted speeds. See Owner's Manual for details. [17]Near Field Communication (NFC) digital smartphone key requires a compatible Android smartphone and an appropriately equipped vehicle. Not all Android devices are compatible. Google, Android and Android Auto are trademarks of Google Inc. See your Owner's Manual for details and limitations. [18]Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. [19]Dynamic Voice Recognition varies by unit. Speak in a normal voice and minimize background noise for best results. See Owner's Manual for details and limitations. [20]Connected Routing helps drivers access the latest traffic and road conditions. It requires an active subscription to Genesis Connected Services and a wireless connection. Never operate the navigation system while driving your vehicle. See Owner's Manual for details and limitations. [21]Over-the-Air Updates require a Genesis Connected Services Guidance package subscription and strong cellular signal to your vehicle. [22]Optional two-way charging will deplete battery and becomes inoperable once battery discharge limit reaches 20%. Not all electrical appliances will operate properly when using this feature. Do not use products that require a continuous power supply. Total power draw should not exceed 1.9 kW. [23]Remote Smart Parking Assist (RSPA) can help remotely park the vehicle. However, several factors can impact RSPA performance. RSPA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) interfere with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for details and limitations. [24]The smart trunk will open when your Proximity Key is within 3 feet of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with the normal operation of this feature. See Owner's Manual for details and limitations. Always close your trunk before operating vehicle. [25]All SiriusXM services require a subscription sold separately, or as a package, by Sirius XM Radio Inc. after the trial period has elapsed. The subscription plan you choose will automatically renew, and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change. Satellite and outside-the-car lineups vary slightly. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. [26]Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, Google Play and other marks are trademarks of Google Inc. Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. [27]Remote features are subject to adequate cellular coverage, signal strength and battery power, and only available in the 50 United States. You must be an active subscriber or within the initial free-trial period to receive Genesis Connected Services. [28]Amazon, Alexa and all related logos and motion marks are trademarks of amazon.com, Inc. or its affiliates. Google Home and Google Assistant are trademarks of Google Inc. [29]Subject to adequate cellular coverage and signal strength. Genesis Connected Services agents will contact existing emergency service responders. [30]Genesis Connected Services require an active subscription agreement subject to the Connected Services Terms and Conditions. Complimentary subscription term starts from the new vehicle date-of-first-use and is available for new 2023 model-year vehicle purchases and leases, as well as transferable to subsequent owners subject to the Terms and Conditions. Only use Genesis Connected Services and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees are subject to change. For more on details and limitations, visit genesis.com or an authorized retailer of Genesis branded products. [31]Genesis Service Valet is available for original purchaser of the vehicle from Authorized Genesis Retailers during the scheduled maintenance period, which includes scheduled maintenance and normal wear, parts replacement or warranty repairs to your vehicle for 3 years or 36,000 miles, whichever comes first. Coverage area varies by retailer. Charges and fees may apply. Contact your Authorized Genesis Retail Service Advocate for details. [32]Genesis Complimentary Maintenance is for 2023 model-year vehicles for normal factory-recommended scheduled maintenance for 3 years/36,000 miles, whichever comes first. Ownership limitations and exclusions may apply. See your Genesis Retailer for details. [33]Genesis Roadside Assistance is a limited and complimentary service for 5 years/unlimited miles from date of first use. Coverage is effective from the date the vehicle is delivered to the first retail buyer, or otherwise put into service (in-service date), whichever is earlier. Mileage and ownership limitations may apply. See your Genesis Retailer for details. [34]Multimedia and Navigation Map Care updates are available annually for 2023 model-year vehicles for 3 years after purchase with a regularly scheduled maintenance appointment. Availability timing of software updates may vary. Ownership limitations may apply. See your Genesis Retailer for details. Over-the-Air Updates require a Genesis Connected Services subscription. [35]EPA estimates for comparison only. MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. Mileage may vary with driving conditions, driving habits, the vehicle's condition, the age/condition of the lithium ion battery, and other factors. [36]Powertrain Limited Warranty available for original retail owner only. [37]For further details and limitations regarding the Genesis Brand Warranty, contact your Genesis retailer or visit genesis.com.
